

PSG Wooddale - Valley View Neighborhood Node

Public Space Guidelines: WVV Corner

- ① **Enclose and Activate the Public Space with up to 3 story Buildings** at this key intersection.
- ② **Cozy the building to the sidewalk** along either Valley View Road, as shown here, or Wooddale Avenue.
- ③ **Plant trees** along Valley View Road and Wooddale Avenue where they are now missing.
- ④ **Program the space** with annual, seasonal and weekly events to activate the space.
- ⑤ **Maximize Flexibility** by using temporary or mobile event equipment, and avoid encumbering the space with permanent vertical features. Structure the ground to carry food trucks.
- ⑥ **Anchor the corner(s)** with interpretive public art that doubles as rest/seating.
- ⑦ **Build sidewalks** along all edges of public streets/spaces.
- ⑧ **Accommodate bicycling** with fewer steps, ample bike parking, and with bike lanes or a wide curb lane along Valley View Road.
